NEWS

Values Education

Our value for JULY is:
UNITY

ENHANCING AND ENRICHING LEARNING

Last week, we had 4 exciting educational visits and experiences. Year 1 visited Woburn Safari Park linked to their learning in Science; Year 2 visited The Shuttleworth Collection, as part of our exciting project with them to design a learning sequence based on local inventors and engineers; Year 3 camped overnight on the school field (adventurous outdoor activities) and Year 5 visited the Abbey Pumping Station and slept overnight under the exhibits at The National Space Centre in Leicester. All of these visits were not only enjoyable, but enhanced the children's learning and added valuable experiences as part of our [Laburnum Cultural Passport](#).

WHAT DOES MY CHILD LEARN IN SCHOOL?

To find out more information about what your child learns at school, please visit the curriculum part of our school website. We are always evolving our curriculum offer to ensure we improve and offer the best curriculum possible and our website content changes to reflect these updates. The Computing page has been updated to reflect the new and more challenging scheme of work we are now following and the Science page has been updated with documents for each year group that clearly shows the key learning in each science topic. We will use the newsletter to communicate any further updates so that you can check the website and are fully informed about what your children are learning in school. <https://www.laburnumprimary.co.uk/curriculum-1>
